

Janus International and LEED® for New Construction

LEED (Leadership in Energy and Environmental Design) is a voluntary, consensus-based rating system for developing high-performance, sustainable buildings developed by The U.S. Green Building Council (USGBC).

The LEED for New Construction and Major Renovations Rating System guides and distinguishes high-performance commercial and institutional projects. Following is Janus International's contribution toward them:

Materials and Resources Credit 4.1 and 4.2: Recycled Content Percentage

Janus International product components contain Post Industrial and Post Consumer recycled content as listed below.

Janus International Recycled Content, 2011

- Pre-painted Steel Curtain and Hood Material
88% Recycled Content
- Structural Steel guide and Bottom Bar Angle
12% Post Industrial
59% Post Consumer
- General Steel Components in Shafts and Brackets
17% Post Industrial
81% Post Consumer

Materials and Resources Credit 5.1 and 5.2: Regional Materials

Manufacturer Locations:

- Janus International, 134 Janus International Blvd., Temple, GA 30179
- Janus International, 13374 W. Peoria Avenue, Surprise, AZ 85379
- Janus International, 1256 Brittmoore Road; Houston, TX 77043

Minimum percentage of recycled material that is procured within a 500-mile radius of manufacturer:

- 95%

Percentages are based on information received from our vendors and have been represented to Janus International as true and accurate.
