FOR IMMEDIATE RELEASE

Janus International Passes Static Pressure and Impact Rated Tests

(Temple, GA – April 13, 2010) Janus International’s Rolling Steel Division has announced that it has passed the Static Pressure and Impact Rated tests for its SD (service door) and ID (insulated door) Series and has expanded its array of certifications on the SD10 and SD20 flat slat series.

Static Pressure Rated

FL13493 – Series ID25 – Slat type I8265 - Design pressure rated +/-50.0 psf at tested width of 16’-4”. Maximum size is 24’-4” x 30’-0”. Design pressure rating will vary depending on width. Tested per ASTM E 330 and ANSI/DASMA 108.

Impact Rated

FL13491 – Series ID25 – Slat type I8265 - Design pressure rated +/-50.0 psf at all widths through 16’-4”. Maximum size is 16’-4” x 30’-0”. Tested per ASTM E 330, ANSI/DASMA 108, TAS 201, TAS 203, and ANSI/DASMA 115.

FL13490 – Series SD10 & SD20 – Slat type F8265 - Design pressure rated +/-40.0 psf at all widths through 16’-4”. Maximum size is 16’-4” x 30’-0”. Tested per ASTM E 330, ANSI/DASMA 108, TAS 201, TAS 203, and ANSI/DASMA 115.

“The passing of these tests is indicative of the strength and durability of our standard service doors and our insulated foamed-in-place polyurethane doors,” states Vice President Dan Beckley. “Our SD and ID Series doors are designed in accordance with the Florida Building Code and the International Building Code.”
