

ELEVATE YOUR CUSTOMER EXPERIENCE WITH THE **NOKĒ™ SMART ENTRY SYSTEM**

Elevate your customer experience (and your unit doors) with the **Nokē Elevate** automatic door opener. Your tenants can now open and close their individual self-storage unit doors from the palm of their hand. In addition to seamless, automated mobile entry, each unit is secured with an internal electronic lock. Take the hassle out of processes like manual over locks and lock drilling, all while providing ultra premium, ADA compliant smart units.

- Provides tenants with easier access—elevate your customer experience with automatic unit door opening and closing
- Meets certain state's interpretation of ADA requirements for self-storage
- Gives operators another way of offering premium units that command higher rental rates with automated, mobile app opening, and closing of unit door, PLUS enhanced monitoring and features like Digital Key Sharing

ADDITIONAL BENEFITS:

- Interior electronic lock adds an additional layer of security
- Opens and closes door automatically using your custom branded smart entry app
- All of the hardware is built into the motor itself, making our installation quick and easy
- Highly perceptive sensor that moves the door back up when an object is encountered
